

PREETHAM L SINGH

Bangalore, Karnataka, India

+91 8310420040 ✉ singhpreetham518@gmail.com GitHub LinkedIn

PROFESSIONAL SUMMARY

Computer Science and Engineering student at Sir M. Visvesvaraya Institute of Technology with a CGPA of 8.29. Strong foundation in software development, machine learning, computer vision, data analytics, and problem solving. Passionate about building real-world applications and continuously learning emerging technologies.

TECHNICAL SKILLS

Programming Languages: Python, Java, C, SQL

Data Analytics: Power BI, Excel, Data Visualization

Machine Learning: Scikit-learn, Data Preprocessing, Feature Engineering, Predictive Modeling

Computer Vision: OpenCV, Image Processing, Object Detection, Facial Landmark Detection

Web Technologies: HTML, CSS, JavaScript

Tools: Git, GitHub, VS Code, Jupyter Notebook

Soft Skills: Problem Solving, Teamwork, Project Management, Time Management

Technical: Strong DSA and SQL Basics

EDUCATION

Sir M. Visvesvaraya Institute of Technology (Sir MVIT)

Bangalore, Karnataka

Bachelor of Engineering in Computer Science and Engineering — CGPA: 8.29

2023 – 2027

- Relevant Coursework: Data Structures, Algorithms, Database Management Systems, Operating Systems, Computer Networks, Machine Learning

PROJECTS

Driver Drowsiness Detection System

- Developed a real-time driver fatigue detection system using computer vision techniques.
- Implemented facial landmark tracking and eye-state monitoring using OpenCV.
- Generated alerts when signs of drowsiness were detected to improve road safety.

Human Failure Prediction System (HFPS)

- Built a machine learning model to predict human performance outcomes using historical datasets.
- Performed data preprocessing, feature engineering, model training, and evaluation.
- Compared multiple algorithms to improve prediction accuracy.

Indian Startup Funding Dashboard

- Designed an interactive dashboard for analyzing startup funding trends and investments.
- Performed data cleaning and visualization to derive business insights.
- Presented funding patterns using charts and analytical reports.

AI Image Generator

- Developed a web-based AI application capable of generating images from text prompts.
- Integrated AI image generation workflows with a user-friendly interface.
- Implemented prompt handling and image rendering functionalities.

ACHIEVEMENTS

Maintained a CGPA of 8.29 in Computer Science and Engineering.

Developed multiple projects in Machine Learning, Computer Vision, Data Analytics, and Generative AI.

Active learner in cybersecurity and emerging technologies through professional certification programs.
